PROFESSIONAL SUMMARY

An Artificial Intelligence graduate with hands-on experience in AI, Machine Learning, Computer Vision, and full stack development. Passionate about building real-world, data-driven solutions through intelligent automation and modern technologies, with a strong focus on scalable and production-ready applications.

EXPERIENCE

AI Automation Intern – CodeCelix (Remote)

Aug 2025 – Nov 2025

- Provided AI-powered solutions using modern tech stack
- Built Smart Resume Analyzer and Job Matching System using AI, NLP, and Next.js
- Built real-time Speech-to-Text system using Streamlit

EDUCATION

Bachelor of Science in Artificial Intelligence
National Textile University, Faisalabad

Oct 2022 – July 2026

TECHNICAL SKILLS

Languages: Python, HTML/CSS, JavaScript, TypeScript

Frameworks: FastAPI, Next.js, TailwindCSS, RAG

Development Tools: GitHub, VS Code, Kaggle, Google Colab, n8n, Vercel

Databases: Firebase, Supabase, MongoDB, PineCone

PROJECTS

AasaanLearn (Final Year Project) - Developed an AI-based web app which provides education to students who are Dyslexic, Autistic, and Blind by converting uploaded content according to the need of the students. Awarded 1st Position among BS Artificial Intelligence Final Year Projects. [Live](#)

RecapAI - Built a full-stack AI-based web application which allows users to convert their meetings into tasks and assigns them priorities for better completion. [Live](#)

ScholarAI - Developed a scholarship Eligibility Checker which returns the available scholarships for students based on the CNIC and Transcript uploaded by that user.

FlashQuiz+ - Developed an AI-based system which converts uploaded PDFs into flashcards for learning and creates automated quizzes based on the uploaded files.

CERTIFICATIONS

Microsoft Office Specialist (certiport) | n8n Course Level 1 | n8n Course Level 2
